

# Charity event at Comic-Con

Author: Anna-Maria

Kindness is the undeniable engine of society. From an early age, children are taught empathy for others. Our school tries to help the planet and the needy with social events. One of the most recent is Comic-Con, which raised 16,450 rubles. Mr. Hearn (MYP and DP biology and chemistry teacher) electronically donated this money to «American Wildlife» for the protection of wild animals in America. The donation will sponsor wildlife advocates (lawyers, scientists, attorneys, and activists) who are restoring threatened wildlife in North America.
